Physicians selecting donors for their patients have always counted on CCB. Why wouldn't you?

About California Cryobank

California Cryobank (CCB) has been an innovator and leader in reproductive tissue banking since 1977. Our reputation for outstanding quality and customer service has made us the #1 choice among physicians and their patients, servicing all 50 states and more than 30 countries worldwide. Offering the industry's largest and most diverse selection of donors and donor information, CCB's highly qualified staff of medical directors, genetic counselors, and parent service specialists provides the experience, care and knowledge to assist you with all your donor sperm needs.

"Great donor selection. The website is great, easy to use with quick access to information."

Our Donors

Being a CCB donor means being the best. Less than 1% of applicants qualify. Each applicant must:

- Possess a sperm count/motility in the top 15%-20% of the population
- Test negative for Chlamydia, Syphilis, HIV, Gonorrhea, HTLV and Hepatitis
- Complete multiple interviews with our Donor Department to assess his suitability for the program and confirm his medical, educational, and personal information
- Screen negative on required genetic tests and have his family medical history evaluated by a CCB genetic counselor
- Have his chart reviewed by a Laboratory Manager and Medical Director

Once the applicant has met CCB's strict requirements, he becomes a donor.

Selecting Your Donor

CCB makes selecting your ideal donor easy by offering:

- Premium donors recruited from world-class universities including UCLA, Stanford, Harvard, MIT and USC
- Anonymous and Open donors
- ICI, IUI, and ART vials
- Comprehensive donor information including: Long Profiles, Essays, Audio Interviews, Baby Photos, Facial Feature Reports, Staff Impressions, Handwriting Analyses, and Donor Look-a-Likes
- Donor matching and genetic consultation services
- An on-line catalog updated daily, featuring power search tools

Insemination Countdown

Planning your insemination can be a daunting task. CCB makes the process easy and stress-free by guiding you through these basic steps:

5-6 Weeks Prior

- Review the CCB on-line donor catalog
- Download free Short Donor Profiles from website
- Consult with your physician:
 - How many vials you should order?
 - Vial type (ICI, IUI or ART)
- Open your CCB account

4 Weeks Prior

- Narrow down donor choices and create your "favorites" list
- Order donor information
- Schedule a Photographic Match

2-3 Weeks Prior

- Make your final donor selection
- Order your vials
- Plan ahead: Store extra vials with our Family Today or Family Tomorrow programs at no charge to guarantee your donor is available for additional cycles or siblings

1 Week Prior

- Perform ovulation test or see physician
- Call to schedule your shipment
